

# Multi-talent for folding, gluing, dispensing

## Wide range of applications

- › Folding
- › Gluing
- › Dispensing of flat products, cards, package inserts
- › Dispensing of labels
- › Dispensing of adhesive tape with or without pull strip
- › Pick & place of voluminous product samples
- › Gluing capacity folders
- › Inline creasing and perforating
- › **NEW:** Bar code scanner
- › Accessories for further applications (see below)

## Highlights

- › Modular machine concept for versatile applications and products
- › Fast and reproducible set-up with grid system
- › JobPlanner software for optimised job set-up, archiving and costing
- › suction-belt feeder
- › **NEW:** motor-driven alignment table (right and left, KAMA patent)
- › Sliding control panel
- › Multiple retrofitting options

Fast set-up on the patented tool mounting grid

## KAMA ProFold 74 Folder-Gluer

### Technical data

Paper, paperboard, plastics	100 – 600 g/m <sup>2</sup> (6 - 25 pts)
Maximum blank width	740 mm (29 in)
Minimum blank size (L x W) (* smaller on request)	120x80 mm* (4x3 3/16 in*)
Maximum linear speed	150 m/min
Dimensions (standard length)	5,500x1,000 mm (216x39 1/2 in)

### Further accessories (selection)

Hot melt gluing system	Standard
JobPlanner software	Standard
Programmable rotation device (1°–360°)	Option
Rotation device (90°)	Option
Tipper fold plate	Standard
Upper and lower pocket folding device	Option
Cold glue application system	Option
Flat stack feeder	Option
Second transport module	Option
Various dispensing devices	Option

#### Adhesive tape

#### Capacity folders

#### Small products

#### Cross-folders

#### Folded cards

#### Dispensing

#### Slipcases

#### Folded cartons

#### Ticket pockets
